(Khetha lipotso tse peli karolong ena)

POTSO EA BOBELI

Fetolela puo ena e ngotsoeng ka Senyesemane Sesothong.

When you want to live a happy life, tie it to a goal, not to people or objects. Life will always be hectic and complicated. Stop waiting for life to get easier or better in order to be happy. Learn to be happy now, otherwise you will run out of time. Enjoy the little things in life, one day you will look back and realize they were the big things. Life changes very quickly, in a very positive way if you let it. Life is not meant to be easy; it is meant to be lived. Sometimes happy, other times rough. But every up and down you learn lessons that make you strong.
