

NATIONAL UNIVERSITY OF LESOTHO
BACHELOR OF LIBRARY AND INFORMATION STUDIES (BLIS)
LIS 1307: ORGANISATION OF KNOWLEDGE

JUNE 202

MARKS: 100

TIME: 3 HOURS

INSTRUCTIONS:

- There are **five** question in all.
 - This exam paper is divided into **two sections**.
 - Section A – is compulsory.
 - Section B – answer only two questions.
-

SECTION A

QUESTION 1

With five examples, distinguish between the Controlled indexing language and Natural indexing language. [25]

QUESTION 2

What are the five main purposes of abstracting in academic libraries? [25]

SECTION B

QUESTION 3

Recall and precision are closely related to both exhaustivity and specificity. How does a high level of exhaustivity increase recall and a high level of specificity increase precision? Give calculations to illustrate your explanation. [25]

QUESTION 4

Discuss any five types of indexes, giving clear examples of each type. [25]

QUESTION 5

Describe in detail any five types of abstracts. [25]
